

# **DON'T LET Uber Execs Rewrite Public Safety Rules**

**Uber Corp. will spend whatever it takes to repeal Austin public safety rules in the special election May 7. We need your help to stop them.**

The Austin City Council supports ride sharing, but wants to protect public safety with fingerprint background checks of taxi and ride share drivers.

Uber refuses, and puts profits ahead of safety. It deceived petition signers by falsely claiming the Council wanted to force Uber out of Austin.

Uber accepts fingerprint checks in Houston, but thinks it can bully Austin. An ordinance written by Uber would repeal Austin public safety rules.

If Uber succeeds, other corporate interests may try to roll back city laws that protect neighborhood zoning, the environment, water quality and health.

**We Need Your Help.**  
**Stand up for Austin. Vote NO, May 7**
